

We're down with **round**

4 big reasons K-Style gutters love round downspouts—and you will too!

1

IT'S COLD OUT THERE. Corrugated round pipe is very forgiving to ice buildup in winter months because it has room to expand before stresses would pop the seam.

2

THERE'S NO MATCH to the amount of water and debris that can flow through round downspouts.

3

YOU CAN SET YOURSELF APART. Round downspouts offer K-Style gutters a distinctive, architectural look—and that can increase your profits!

4

WILCO HAS EVERY STYLE—corrugated & smooth in aluminum steel and copper.
