

**WILCO CONTINUES
TO BE THE BEST AND
MOST TRUSTED.
HERE'S WHY:**

- ★ Competitive pricing from an industry insider and Midwest price leader.
- ★ Best quality and variety of gutter styles and component products including downspouts, elbows, fasteners, paint, tools and more—made in-house at Wilco Supply. We don't buy from competitors!
- ★ Locally and family owned—not from some far away city.
- ★ Fastest pick-up service is now even faster with our new, fully stocked 100,000+ square foot warehouse and customer service center.
- ★ Durable, high-quality aluminum, impeccable gutter shape and seams, elbows with exact angles and crimping, perfect color matches, and a 20-year paint warranty.
- ★ No delivery fees. And we take returns.
- ★ Need a special item? Just ask! We'll order it for you.
- ★ 24-hour online ordering.
- ★ Knowledgeable employees—with more than 85 years of combined experience.
- ★ We tell you the truth about the marketplace, supply/demand and prices.

Using the right materials like high-quality aluminum or choosing the timeless beauty of copper can turn a home from nice into stunning.

**ALONG WITH STANDARD,
K-STYLE GUTTERS & ACCESSORIES,
WILCO HALF-ROUND GUTTERS ARE
A POPULAR, ELEGANT OPTION FOR
YOUR CLIENTS.**

You always want to offer customization to your clients. The same is true for gutters! More and more homeowners would like gutters that are more customized to suit their homes and are interested in something more stylish and visually appealing—especially when considering resale.

An alternative to the standard aluminum k-style gutters is half-round gutters. Instead of being more square shaped, half-round gutters are rounded, like a round pipe that is cut lengthwise, and they feature great efficiency for handling water volume.

Half-round gutters are available in 6" widths and can be installed as seamless gutters or in sections. Wilco can provide materials for half-round gutters in high-quality aluminum in a variety of colors, or you can choose the classic look of copper. Contact your gutter installer or ask your Wilco representative about availability.

At Wilco, we want to build long-term relationships with our general contractors and builders. **WE'RE HERE TO HELP YOU SUCCEED.** There truly is a difference in gutter suppliers. Check out the **WILCO DIFFERENCE** for yourself.

Call us: 317.781.5464 or 800.874.4945. And check out our entire line of products and services available in our online store at www.wilcosupply.net.

**WHAT YOU SHOULD KNOW
ABOUT INSTALLATION:**

HAVE A SCALED PLAN: Homes with multiple rooflines, various degrees of pitch and multiple gables add a level of complexity that requires a plan. Your installer should develop this plan to scale, designing a system based on the square footage being served and factoring in the potential for heavy downpours.

SEAMS: The most common place a gutter fails is at the joints and seams. A seamless gutter will never have this problem. Seams should only occur at the corners. The corner with the least amount of seams has the least chance of a leak developing.

ANGLE: Also look for proper angle for the most efficient water collection and distribution.

FASTENERS: Make sure installers use long-form screws instead of nails to fasten gutters to the home.

INSURANCE: Be sure to work with a company that has liability insurance and workmen's compensation binders which covers your home project AND their employees (or Subs, if they use them).

**WHAT TO LOOK FOR IN HIGH QUALITY
GUTTER PRODUCTS AND MATERIAL:**

Aluminum gutters: While steel is an option to install, it's prone to corrosion and decay. Aluminum is strong, durable, doesn't corrode and is easily formed (rolled) by a gutter machine on the job site. Wilco has a wide variety of colors to choose from. Contact your gutter installer or ask your Wilco representative about availability.

★ ★ ★
As with windows, roofing and other fine details, choosing the appropriate style for the gutter system can add *charm and value* to a home.

Combining half-round gutters with round downspouts and the perfect color match will *complete every home.*
